

Quantum SuperLoader 3

Advanced Automation at an Affordable Price

Dear Valued Partner,

Small Sites Need Better Backup, Too.

Accelerating data growth means that even smaller data centers face the problem of protecting TBs of data from loss, malware, and potential damage to facilities.

Tape is the perfect backup medium for many - it is economical, portable, and it provides protection against ransom-ware attacks that most disk backup can't match. But managing automated tape system, especially in smaller sites with limited IT staff, has presented a problem.

Until now.

The Quantum SuperLoader 3 brings you;

- a full suite of advanced features at an affordable price with easy integration, including StorageCare Guardian, remote management, and barcode reader - all at no additional cost
- an intuitive user interface and compatibility with a broad range of backup software packages
- the ability to easily expand from 8 to 16 cartridge slots, ensuring your investment is protected as your needs grow
- Multiple LTO generation support.
